PEONIES.

Our collection of Peonies comprises the finest sorts obtainable, varieties combining beauty of form, with fullness, large size and clear color.

In the matter of form, especially, the modern Peony delights the eye and compels admiration; many of the old garden varieties had no more beauty of build than a shuttlecock, depending solely upon size and color to attract; the majority of these listed are as symmetrical and as graceful as the highest types of roses and chrysanthemums, and absolutely free from coarseness.

The demand for fine Peonies is growing with each year, and every florist should have at least a small plantation of them from which to supply his trade, both for the plants and for cutting.

The stock which we shall deliver this fall will not be fresh divisions, but one-year-old clumps, divided last fall, and now in magnificent growth; they are much superior in quality to freshly cut divisions.

READY IN SEPTEMBER. LET US BOOK YOUR ORDER NOW.
